ABOUT CHILL CHE

Your Engineering Partner for Complete Solutions

Chill Che is in affiliation with ISO 9001:2015 high-quality precision machined parts firm offering one-stop engineering solutions for a wide range of industries and engineering applications.

Backed by the legacy and trust of Chintan Sales (30+ years of excellence), we combine the agility of an engineering solutions company approach with a commitment to delivering precision, quality, and value—every time.

VISION & MISSION

VISION

To become a globally respected engineering company that innovates the future; excels in field of manufacturing through innovation, precision, trust and uncompromising quality.

MISSION

To be the preferred engineering partner for global OEMs by delivering premium-quality products, custom manufacturing and complete engineering solutions for all India.

OUR PROMISE TO YOU

- ✓ Premium Quality Every Time
- ✓ Precision Beyond Expectations
- ✓ On-Time Delivery
- ✓ Transparency & Honesty
- ✓ Long-Term Partnerships
- ✓ Global Standards

Premium Power Tools

Pressure, Level, Flow &
Temperature Switches

ENGINEERING PORTFOLIO

**Precision. Performance. Reliability.
Engineered for Your Success.**

At Chill Che, we deliver a comprehensive range of precision-engineered components and solutions that power industries and drive innovation. From prototyping to production, we ensure every part meets the highest standards of quality and performance.

QUALITY ASSURANCE

Quality is at the heart of everything we do. We follow a strict quality management system to deliver precision, reliability and consistency in every component we manufacture.

QUALITY FIRST APPROACH

We are committed to delivering defect-free products that meet customer expectations every time.

PRECISION & ACCURACY

Advanced equipment and skilled professionals ensure the highest level of dimensional precision.

STRICT INSPECTION PROCESSES

Multi-stage inspection at every production stage ensures consistent quality and performance.

CONTINUOUS IMPROVEMENT

We constantly upgrade our processes, technology and skills to stay ahead and exceed industry standards.

CUSTOMER SATISFACTION

We believe in long-term partnerships built on trust, transparency and superior quality.

NABL ACCREDITED LAB TESTING

We offer NABL accredited lab testing of our materials as per client requirements.

In affiliation with
ISO 9001 : 2015
company.

We provide **NABL accredited** test certificates as per client requirements.

INDUSTRIES WE SERVE

Our precision-engineered components and solutions cater to a wide range of industries. We understand your requirements and deliver reliability that drives your success.

NUCLEAR & DEFENCE

High-precision components built for safety, reliability and critical applications.

OIL & GAS

Durable parts for exploration, drilling and processing in the most demanding conditions.

ENGINEERING & MACHINERY

Precision components that enhance performance and operational efficiency.

AUTOMOTIVE

High-quality parts that ensure performance, safety and long-term durability.

CHEMICAL & PHARMA

Corrosion-resistant, precise components for sensitive and high-purity environments.

POWER & ENERGY

Reliable solutions for power generation, transmission and distribution systems.

WIDE INDUSTRY EXPERTISE

Serving diverse sectors with specialized solutions.

RELIABLE PERFORMANCE

Components built for high performance and reliability.

CUSTOM SOLUTIONS

Tailored to meet unique industry requirements.

QUALITY YOU CAN TRUST

Consistent quality that keeps your operations running smoothly.

OUR PRODUCTS

We manufacture a wide range of precision-engineered components and assemblies that meet the highest standards of quality and performance. Every product is built with precision, consistency and reliability.

PRECISION MACHINED COMPONENTS

High-accuracy machined parts with tight tolerances and superior surface finish.

TURNED COMPONENTS

CNC turned parts for complex geometries with excellent dimensional accuracy.

MILLED COMPONENTS

Precision milled components suitable for a wide range of industrial applications.

GEAR & DRIVE COMPONENTS

High-performance gears and drives designed for smooth power transmission.

ASSEMBLIES

Precision assemblies built with exact fit and function for seamless operations.

ENGINEERING PLASTICS

Durable and high-performance plastic components for demanding applications.

WEAR COMPONENTS

Long-lasting wear parts engineered to withstand high stress and friction.

CUSTOM COMPONENTS

Tailor-made solutions engineered as per unique customer drawings and needs.

FASTENERS & FITTINGS

Reliable fasteners and fittings that ensure strength, safety and secure connections.

TOOLS & ACCESSORIES

Premium tools and accessories to support precision, efficiency and productivity.

QUALITY ASSURED PRODUCTS

All products are manufactured under strict quality control.

CUSTOM SOLUTIONS

We design and deliver products tailored to your exact requirements.

ON-TIME DELIVERY

Timely execution and delivery you can rely on for your business.

BUILT FOR PERFORMANCE

Engineered for durability, precision and long-term performance.

GLOBAL DELIVERY CAPABILITY

Engineering Precision. Ready to Serve Worldwide.

Built with international quality standards in mind, Chill Che is prepared to support customers across global markets with precision-engineered components and industrial solutions. We are committed to delivering reliable quality, responsive service, and engineering excellence for customers in India and international markets.

WORLDWIDE SUPPLY CAPABILITY

Prepared to support customers worldwide with precision-engineered components and industrial solutions.

LONG-TERM PARTNERSHIPS

Building lasting customer relationships through quality, transparency, technical expertise, and dependable service.

EXPORT-READY LOGISTICS

Supporting domestic and international shipments with appropriate documentation, inspection support, and coordinated logistics.

CUSTOMER-FOCUSED APPROACH

Understanding every customer's unique requirements and delivering tailored engineering solutions with responsive support.

QUALITY YOU CAN TRUST

Consistent quality that meets international standards.

ENGINEERED FOR EXCELLENCE

Precision-engineered components designed for global industries.

STRONGER TOGETHER

Building a better future through collaboration and innovation.

GROWING GLOBALLY

Expanding our capabilities to serve you, everywhere.

WORLDWIDE SUPPLY CAPABILITY

*Illustrative representation of our global supply capability and export readiness.
Locations shown represent target and serviceable markets, not existing customer locations.*

OUR COMMITMENT ACROSS BORDERS

No matter the distance, our promise remains the same – precision in every part, partnership in every project.

**WORLDWIDE
EXPORT READY**

MANUFACTURING CAPABILITIES

OUR KEY MACHINERY

Equipped with advanced machinery and the latest technology, we deliver precision-engineered components with consistency, accuracy and efficiency.

ADVANCED MACHINERY

Wide range of CNC and conventional machines to handle diverse manufacturing requirements.

PRECISION & ACCURACY

High-precision equipment ensures tight tolerances and superior surface finish.

HIGH PRODUCTION CAPACITY

Optimized processes and machines to ensure on-time delivery for bulk and urgent orders.

QUALITY ASSURANCE

All processes are closely monitored to maintain highest quality standards.

SKILLED WORKFORCE

Experienced and skilled team leveraging technology to deliver precision and reliability.

CNC VMC MACHINES

- High precision machining
- Complex part manufacturing
- Tight tolerance capability

CNC TURNING CENTERS

- High accuracy turned parts
- Complex turning operations
- Consistent quality output

CONVENTIONAL LATHES

- Versatile machining
- Medium to large components
- Reliable and efficient

CONVENTIONAL MILLING

- Precision milling operations
- Slots, profiles & contours
- Flexible applications

SURFACE GRINDERS

- Accurate flat surface finish
- Tight tolerance control
- Superior surface quality

CYLINDRICAL GRINDERS

- Precision cylindrical grinding
- High surface finish
- Dimensional accuracy

RADIAL DRILL MACHINES

- Multi-size drilling
- Heavy duty operations
- Accurate hole production

INSPECTION EQUIPMENT

- CMM, Height Gauge & more
- Dimensional inspection
- Ensures quality compliance

STATE-OF-THE-ART INFRASTRUCTURE

Modern machines for precise manufacturing.

TECHNOLOGY DRIVEN PROCESSES

Advanced technology for better accuracy and efficiency.

VERSATILE MACHINING CAPABILITIES

From simple to complex parts, we can do it all.

COMMITTED TO EXCELLENCE

Delivering precision, consistency and reliability.

INFRASTRUCTURE & FACILITIES

Our well-equipped infrastructure and modern facilities enable us to maintain high standards of production, quality and safety. We continuously invest in our facilities to enhance efficiency and meet the growing demands of our customers.

OUR FACILITIES

SPACIOUS PRODUCTION UNIT

- Well-planned layout for smooth workflow
- Ample space for production and storage

ADVANCED MACHINERY

- State-of-the-art machines for precision manufacturing
- Regular maintenance for optimal performance

QUALITY CONTROL LABORATORY

- Equipped with advanced testing instruments
- Ensuring stringent quality standards

SKILLED WORKFORCE

- Experienced and dedicated team
- Continuous training and skill development

SAFETY & ENVIRONMENT FOCUS

- Safe working environment
- Compliance with safety and environmental regulations

EFFICIENT OPERATIONS

- Streamlined processes for maximum efficiency
- On-time delivery with consistent quality

WELL-PLANNED PRODUCTION FLOOR

CNC MACHINING AREA

QUALITY CONTROL LAB

TOOL ROOM

MATERIAL STORAGE

FINISHED GOODS AREA

MODERN INFRASTRUCTURE
Built to support precision engineering and growth.

CONTINUOUS IMPROVEMENT
Upgrading facilities and processes for better tomorrow.

QUALITY & SAFETY
Committed to maintaining the highest standards in everything we do.

BUILT FOR EXCELLENCE
Our infrastructure reflects our dedication to quality, reliability and customer satisfaction.

OUR QUALITY ASSURANCE

Quality is at the core of everything we do. Our robust quality assurance processes ensure that every component we manufacture meets the highest standards of precision, reliability, and performance.

OUR QUALITY APPROACH

QUALITY PLANNING

Detailed quality planning and process control from the first stage of production.

IN-PROCESS INSPECTION

Rigorous in-process inspections to ensure dimensional accuracy and consistency.

FINAL INSPECTION

Comprehensive final inspection using advanced measuring instruments before dispatch.

DOCUMENTATION & TRACEABILITY

Complete documentation and traceability for every product to ensure accountability.

CONTINUOUS IMPROVEMENT

Regular reviews and process improvements to exceed customer expectations.

Advanced inspection equipment, skilled professionals and stringent processes ensure unmatched quality.

INSPECTION & TESTING CAPABILITIES

CMM

High precision dimensional measurement and inspection.

VISION MEASURING SYSTEM

Accurate non-contact measurement and feature inspection.

SURFACE ROUGHNESS TESTER

Ensures superior surface finish and quality.

HEIGHT GAUGE

Precise measurement of height, depth and step dimensions.

HARDNESS TESTER

Verifies material hardness as per specification requirements.

MICROMETERS & VERNIER CALIPERS

Reliable and accurate measurement of critical dimensions.

ZERO COMPROMISE ON QUALITY
We follow stringent quality standards at every step to ensure defect-free products.

SKILLED QUALITY TEAM
Experienced and qualified professionals dedicated to quality excellence.

PRECISION & ACCURACY
Advanced equipment and calibrated instruments for precise measurements.

COMPLIANCE & STANDARDS
Adhering to national and international quality standards and customer requirements.

CUSTOMER SATISFACTION
Delivering consistent quality that builds trust and long-term partnerships.

WHY CHOOSE CHILL CHE

We combine engineering expertise, quality assurance and customer focus to deliver components and solutions that meet the highest standards.

Your success drives everything we do.

PRECISION ENGINEERING

High-precision components manufactured to exact specifications and tight tolerances.

QUALITY ASSURED

Rigorous quality control at every stage ensures consistent performance and reliability.

NABL TESTING SUPPORT

We provide NABL accredited test certificates of our materials as per client requirements.

ISO 9001:2015 AFFILIATED

Manufacturing through ISO 9001:2015 certified partners, ensuring global quality standards.

CUSTOMER FOCUSED

Understanding your needs and delivering solutions with transparency and responsiveness.

ON-TIME DELIVERY

Efficient planning and streamlined processes to ensure on-time delivery every time.

WIDE RANGE OF CAPABILITIES

CNC machining, fabrication, engineering plastics, reverse engineering and more under one roof.

COMPLETE DOCUMENTATION

We provide comprehensive documentation, test reports and traceability for complete assurance.

ADVANCED EQUIPMENT

Modern machinery and measuring instruments for superior accuracy and surface finish.

FLEXIBLE PRODUCTION

From single prototypes to small batches or large volumes – we adapt to your requirements.

COMPETITIVE PRICING

Quality solutions at competitive prices, ensuring the best value for our customers.

TECHNICAL SUPPORT

Our experienced team is always ready to assist you from concept to final delivery.

OUR COMMITMENT

At Chill Che, we are committed to delivering engineering components and solutions of the highest quality. Through innovation, continuous improvement and long-term partnerships, we strive to exceed customer expectations and build lasting relationships.

TRUSTED PARTNER

We build trust through honesty, integrity and consistent performance.

QUALITY DRIVEN

Quality is not just a process, it's a commitment we live by every day.

CONTINUOUS IMPROVEMENT

We constantly optimize our processes, skills and systems to deliver better outcomes.

GROWING TOGETHER

We believe in growing together with our customers, employees and partners.

INDUSTRIES WE SERVE

Our precision-engineered components and solutions cater to a wide range of industries with diverse and critical requirements.

We understand industry needs and deliver reliable performance, every time.

CUSTOMIZED SOLUTIONS

Tailored components and engineering solutions to meet specific industry challenges and applications.

NUCLEAR POWER

Precision components for critical nuclear applications built to the highest safety and quality standards.

OIL & GAS

Reliable parts for exploration, refining and processing operations in demanding environments.

STEEL & METALLURGY

Durable and high-performance components for steel plants and metallurgical processes.

PETROCHEMICAL

High-precision solutions for chemical processing plants and associated applications.

POWER GENERATION

Engineering solutions for power plants and energy infrastructure ensuring consistent performance.

RAILWAYS

Components and assemblies for rolling stock, signaling systems and railway infrastructure.

DEFENCE & AEROSPACE

Precision-engineered parts meeting stringent standards for defence and aerospace applications.

ENGINEERING & MACHINERY

Custom components for industrial machinery and engineering equipment manufacturers.

PHARMA & BIOTECH

High-quality components for pharmaceutical and biotechnology process equipment.

MARINE & SHIPBUILDING

Robust and corrosion-resistant components for marine and shipbuilding applications.

WIDE INDUSTRY REACH

Serving a broad spectrum of industries with diverse and critical needs.

INDUSTRY EXPERTISE

In-depth understanding of industry standards and application requirements.

RELIABLE PERFORMANCE

Delivering high-quality solutions that ensure long-lasting performance.

LONG-TERM PARTNERSHIPS

Building strong relationships through trust, quality and customer satisfaction.
